ARE YOU...
...a STEM major?
...interested in the space sciences?
...looking for a paid summer research position?

SPEND THE SUMMER STUDYING THE UNIVERSE THROUGH

CAMPARE

The mission of CAMPARE is to advance undergraduate astronomy research and education among traditionally underrepresented groups, in order to increase their numbers in PhD programs in astronomy and related fields.

While CAMPARE is open to anyone who meets the admission criteria, members of minority groups are especially encouraged to apply.

Institutions offering research opportunities through CAMPARE include:

- Carnegie Observatories
- SETI
- Stanford
- Northern Arizona University
- UC Davis
- UC San Diego
- UC Irvine
- University of Wyoming

- HERA Radio Telescope Project (7 sites):
  - Arizona State University
  - Brown University
  - MIT
  - UC Berkeley
  - UCLA
  - University of Pennsylvania
  - University of Washington

INTERESTED? APPLY BY FEBRUARY 1, 2018

Visit cpp.edu/campare for details

or contact the CAMPARE program director about the program: DR. ALEX RUDOLPH: alrudolph@cpp.edu

Katy Rodriguez Wimberley, a former CAMPARE scholar and current PhD candidate at UCI:

“CAMPARE had an incredibly positive influence on where I am now. The connections I made ... helped get me into the Cal-Bridge Scholarship program (and to) succeed in a PhD program.”
CAMPARE
California Minority Partnership for Astronomy Research and Education

Evan Nunez ’19, a former CAMPARE scholar from Cal Poly Pomona:

“CAMPARE, and the summer research experience it provided to me as a community college student, helped identify the right university for me, Cal Poly Pomona.”
